Fort Sumter National Monument
Visitor Study
Summer 2005

University of Idaho
Park Studies Unit
Visitor Services Project
Report 169
Dr. Yen Le is the VSP Coordinator Assistant, Dr. Michael A. Schuett is an Associate Professor in the Department of Recreation, Park and Tourism Sciences, Texas A&M University, and Dr. Steven Hollenhorst is the Director of the Park Studies Unit (PSU), Department of Conservation Social Sciences, University of Idaho. We thank the staff and volunteers of Fort Sumter National Monument for their assistance with this study. The VSP acknowledges Public Opinion Lab of the Social and Economic Sciences Research Center at the Washington State University for its technical assistance. This study was partially funded by the Recreation Fee Program.
This report describes the results of a visitor study at Fort Sumter National Monument during July 17-23, 2005. A total of 594 questionnaires were distributed to visitor groups. Of those, 380 questionnaires were returned resulting in a 64% response rate.

This report profiles Fort Sumter National Monument visitors. Most results are presented in graphs and frequency tables. Summaries of visitor comments are included in this report and complete comments are included in an appendix.

Forty-one percent of visitor groups were in groups of two and 33% were in groups of three or four. Seventy-eight percent of visitor groups were family groups. Forty-nine percent of visitors were ages 36-60 years and 21% were ages 15 or younger.

United States visitors were from South Carolina (13%), North Carolina (9%), Georgia (9%), 38 other states, and Washington, D.C. International visitors comprised less than 1% of the total visitation. Eighty-three percent of visitors visited Fort Sumter National Monument for the first time in their lifetime and 97% visited only once in the past 12 months.

Prior to this visit, visitor groups most often obtained information about Fort Sumter National Monument through travel guides/tour books (53%) and maps/brochures (43%). Sixteen percent of visitor groups did not obtain any information before their visit. Most groups (90%) received the information they needed about the park.

Seventy percent of visitor groups’ primary reason for visiting Fort Sumter National Monument was to see where the American Civil War started. The most common activities on this visit to Fort Sumter National Monument included visiting Fort Sumter (92%) and reading indoor and outdoor exhibits at Fort Sumter (85%).

In regard to use, importance, and quality of services and facilities, it is important to note the number of visitor groups that responded to each question. The most viewed/read exhibits by 357 visitor groups included Fort Sumter outdoor exhibits (89%) and Fort Sumter indoor exhibits (85%). Most visitor groups found that Fort Sumter indoor exhibits (86%, N=282) and Liberty Square indoor exhibits (83%, N=281) were “extremely interesting” or “very interesting.” Fort Sumter indoor exhibits (89%, N=265) and Liberty Square indoor exhibits (87%, N=260) were also the exhibits that received the highest combined proportions of “extremely helpful” and “very helpful” ratings in understanding the history of the site.

The most used visitor services/facilities by the 360 visitor groups included park brochure/map (75%) and Visitor Education Center at Liberty Square (74%). The services/facilities that received the highest combined proportions of “extremely important” and “very important” ratings included assistance from park staff (93%, N=58) and restrooms at Liberty Square (92%, N=211). The services/facilities that received the highest combined proportions of “very good” and “good” quality ratings included assistance from park staff (97%, N=58) and ranger talks/programs (94%, N=198).

Most visitor groups (90%) rated the overall quality of services, facilities, and recreational opportunities at Fort Sumter National Monument as “very good” or “good.” Less than 1% of groups rated the overall quality as “very poor” or “poor.”

For more information about the Visitor Services Project, please contact the Park Studies Unit at the University of Idaho or at the following website http://www.psu.uidaho.edu

INTRODUCTION

This report describes the results of a visitor study at Fort Sumter National Monument. This visitor study was conducted during July 17-23, 2005 by the National Park Service (NPS) Visitor Services Project (VSP), a part of the Park Studies Unit at the University of Idaho.

Organization of the report

The report is organized into three sections.

Section 1: The Methods. This section discusses the procedures, limitations, and special conditions that may affect the results of the study.

Section 2: The Results. This section provides summary information for each question in the questionnaire and includes a summary of visitor comments. The presentation of the results of this study does not follow the same order of questions in the questionnaire. Instead, the results are presented in the following order:

• Demographics
• Information prior to visit
• Information during visit
• Ratings of the park’s services, facilities, resources, qualities, and elements
• Expenditures: only presented if the questionnaire included expenditure questions.
• Information unique to park
• Information about future preferences
• Overall quality
• Visitor comments

Section 3: The Appendices

Appendix 1: The Questionnaire contains a copy of the questionnaire distributed to visitor groups.

Appendix 2: Additional Analysis contains a list of options for cross references and cross comparisons. These comparisons can be analyzed within park or between parks. Results of additional analyses are not included in this report as they may only be requested after of this study is published.

Appendix 3: Decision rules for checking non-response bias.

Appendix 4: Visitor Services Project Publications contains a complete list of publications by the VSP-PSU. Copies of these reports can be obtained by contacting the PSU office or visiting the website: http://www.psu.uidaho.edu/vsp/reports.htm

Visitor comments appendix

A separate appendix contains visitor responses to open-ended questions.
Presentation of the results

Most results are represented in the form of graphs (see example below) with some narrative text. Results may also be displayed as scatter plots, pie charts, or tables when applicable.

SAMPLE ONLY

1: The figure title describes the graph's information.
2: Listed above the graph, the “N” shows the number of individuals or visitor groups responding to the question. If N is less than 30, CAUTION! on the graph indicates the results may be unreliable.
* indicates the total percentages do not equal 100 due to rounding.
** indicates the total percentages do not equal 100 because visitor can select more than one answer choice.
3: Vertical information describes the response categories.
4: Horizontal information shows the number or proportions of responses in each category.
5: In most graphs, percentages provide additional information.
METHODS

Survey Design

Sample size and sampling plan

All VSP questionnaires follow design principles outlined in Don A. Dillman’s book *Mail and Internet Surveys: The Tailored Design Method* (2000). Based on this methodology, the sample size was calculated based on statistics of park visitation statistics of previous years. To minimize coverage error, the sample size was also determined to provide adequate information about specific park sites if requested.

Interviews were conducted with visitor groups, and 594 questionnaires were distributed to a random sample of visitor groups who arrived at Fort Sumter National Monument during the period from July 17-23, 2005. All questionnaires (100%) were distributed at Liberty Square. This location was selected based on park visitation statistics and advice from park staff.

Questionnaire design

The Fort Sumter National Monument questionnaire was developed at a workshop held with park staff to design and prioritize the questions. Some of the questions were comparable with VSP studies conducted at other parks while others were customized for Fort Sumter National Monument. Many questions asked visitors to choose answers from a list that was provided, often with an open-ended option, while others were completely open-ended.

No pilot study was conducted to test the Fort Sumter National Monument questionnaire. However, all questions followed the OMB guidelines and/or were used in previous surveys. Thus, the clarity and consistency of the survey instrument have been tested and proven.

Survey procedure

Visitor groups were greeted, briefly introduced to the purpose of the study, and asked to participate. If visitors agreed, an interview lasting approximately two minutes was used to determine group size, group type, and the age of the group member (at least 16 years of age) who would complete the questionnaire. These individuals were then asked for their names, addresses, and telephone numbers in order to mail them a reminder/thank you postcard and
follow-ups if needed. Visitor groups were given a questionnaire, asked to complete it after their visit, and then return it by mail. The questionnaires were pre-addressed with a U.S. first class postage stamp.

Two weeks following the survey, a reminder/thank you postcard was mailed to all participants. Replacement questionnaires were mailed to participants who had not returned their questionnaires four weeks after the survey. Seven weeks after the survey, a second round of replacement questionnaires were mailed to visitors who still had not returned their questionnaires.

Data Analysis

Returned questionnaires were coded and the information was entered into a computer using standard statistical software packages—Statistical Analysis System (SAS) or Statistical Package for the Social Sciences (SPSS). Frequency distribution and cross-tabulations were calculated for the coded data, and responses to open-ended questions were categorized and summarized.

Limitations

Like all surveys, this study has limitations that should be considered when interpreting the results.

1. This study is a self-administered survey. In addition, the respondents fill out the questionnaire after the visit which may have resulted in poor recall. Thus, it is not possible to know whether visitor responses reflect actual behavior.

2. The data reflect visitor use patterns of visitors to the selected sites during the study period of July 17-23, 2005. The results present a ‘snap-shot-in-time’ and do not necessarily apply to visitors during other times of the year.

3. Caution is advised when interpreting any data with a sample size of less than 30, as the results may be unreliable. Whenever the sample size is less than 30, the word "CAUTION!" is included in the graph, figure, table, or text.

4. Occasionally, there may be inconsistencies in the results. Inconsistencies arise from missing data or incorrect answers (due to misunderstood directions, carelessness, or inaccurate memory of the respondents). Thus, sometimes it is better to refer to both the percentage and N (number of individuals or visitor groups) to interpret the results.
Special Conditions

During the survey distribution period, the weather was typical of Charleston area during July. Generally, it was sunny, hot, and humid. There was an occasionally windy day. The park experienced a high volume of visitation during the survey period. Several boat tours were sold out which may have led to visitors’ dissatisfactory with service quality. Photo service on boat and public transportation system in Charleston were just introduced two weeks before the survey period. Survey participants may not have been familiar with these services at the time of completing the questionnaire. In addition, the Junior Ranger program was on a trial period which may have resulted in a small number of participants.

Checking Non-response Bias

At Fort Sumter National Monument, 614 visitor groups were contacted and 594 of these groups (97%) accepted the questionnaire. Questionnaires were completed and returned by 380 visitor groups, resulting in a 64% response rate for this study. Age of the group member who actually filled out the questionnaire and group size were the two variables used to check non-response bias.

The results show that there is no significant difference between respondent and non-respondent ages and insignificant differences in group sizes. Therefore, the non-response bias was judged to be insignificant and the data in this study is a good representation of a larger population of visitors to Fort Sumter National Monument. See Appendix 3 for more details of the non-response bias checking procedure.

| Table 1: Comparison of respondents and non-respondents |
|-----------------|-----------------|-----------------|-----------------|
| Variable        | Respondent      | Non-respondent  | p-value (t-test) |
|                 | N    | Average | N    | Average |               |
| Age             | 365  | 47      | 213  | 41      | 0.376          |
| Group size      | 374  | 3.8     | 214  | 3.5     | 0.227          |
RESULTS

Demographics

Visitor group size

Question 20
On this visit, how many people were in your personal group, including yourself?

Results
- Visitor group size ranged from 1 person to 50 people.
- 41% of visitor groups consisted of two people (see Figure 1).
- 33% of groups had 3 or 4 people.
- 23% of groups had 5 or more people.

Visitor group type

Question 19
On this visit what kind of personal group (not tour/school group) were you with?

Results
- 78% of visitor groups were made up of family members (see Figure 2).
- 7% were with friends.
- 7% were with family and friends.
- “Other” groups (2%) included:
  - Groups attending a conference
  - Church mission group
  - Work partners.

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Visitors with organized groups

Question 18a
On this visit, were you and your personal group with a school/educational group?

Results
- 99% of visitor groups were not with an educational group (see Figure 3).
- 1% of visitor groups were with an educational group.

**Figure 3: Visitors with a school/educational group**

Question 18b
On this visit, were you and your personal group with a guided tour group?

Results
- 97% of visitor groups were not with a guided tour group on this visit to Fort Sumter National Monument (see Figure 4).
- 3% were with a guided tour group.

**Figure 4: Visitors with a guided tour group**

Respondent ethnicity

Question 22a
For you only, are you Hispanic or Latino?

Results
- 99% of respondents were not Hispanic or Latino (see Figure 5).

**Figure 5: Respondents of Hispanic or Latino ethnicity**

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Respondent race

Question 22b
For you only, which of these categories best indicates your race?

Results
- 97% of respondents were White (see Figure 6).
- 3% were Black or African American.

Figure 6: Respondent race

Visitor age

Question 23a
For you and your personal group (up to seven members), what is your current age?

Results
- Visitor ages ranged from 1 to 89 years old
- 21% of visitors were 15 years or younger (see Figure 7).
- 49% of visitors were in 36-60 age group.
- 11% of visitor were 61 years or older.

Figure 7: Visitor ages

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Number of visits to Fort Sumter National Monument in the past 12 months

Question 23c
For you and your personal group (up to seven members), please list number of visits to the park in the past 12 months.

Results
• 97% of visitors visited Fort Sumter National Monument once in the past 12 months (see Figure 8).
• 2% visited the park twice.

Number of visits to Fort Sumter National Monument in lifetime

Question 23d
For you and your personal group (up to seven members), please list number of visits to the park in lifetime.

Results
• 83% of visitors visited Fort Sumter National Monument for the first time in their lifetime (see Figure 9).
• 12% visited twice.
International visitors

Question 23b
For you and your personal group (up to seven members), please list U.S. zip code or name of foreign country of your residence.

Results
- As shown in Table 2, international visitors comprised of less than 1% of total visitation to Fort Sumter National Monument. **Interpret with caution**!

<table>

**U.S. visitors state of residence**

Question 23b
For you and your personal group (up to seven members), please list U.S. zip code or name of foreign country of your residence.

As shown in Table 3 and Map 1
- 13% of U.S. visitors came from South Carolina.
- 9% came from North Carolina.
- 9% came from Georgia.
- 8% came from Florida.
- Smaller proportions came from 37 other states and Washington, D.C.

Visitors with disabilities/impairments

Question 21a
Did anyone in your group have any disabilities/impairments that affected to their visit to Fort Sumter National Monument?

Results
• 5% of visitor groups had member with disabilities/impairments that affected their park experience (see Figure 10).

Figure 10: Visitors with disabilities/impairments

Question 21b
If Yes, what kind of disability/impairment?

Results
• The most common type of disabilities/impairments that affected visitor park experience was mobility (72%), as shown in Figure 11. Interpret with caution!
• “Other” types of disabilities/impairments (6%) were arthritic leg joints and leg injury.

Figure 11: Types of disability/impairment

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Question 21c
Because of this disability/impairment, did you and your group encounter any access or service problems during this visit to Fort Sumter National Monument?

Results
• Among 5% of groups with disabilities/impairments, 53% encountered access/service problems (see Figure 12). Interpret with caution!

![Figure 12: Visitors who encountered access/service problems due to disabilities/impairments](image)

Question 21d
If Yes, what were the problems?

Results
• Access/service problem that visitor groups encountered included:
  - Boarding and getting off the boat
  - Climbing stairs in the museum
  - Hearing rangers/automated narration on boat
  - Wheelchair inaccessible fort.

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Information Prior to Visit

Source of information

Question 1a
Prior to this visit, how did you and your group obtain information about Fort Sumter National Monument?

Results

- 84% of visitor groups obtained information about Fort Sumter National Monument prior to their visit to the park (see Figure 13).

- The most common sources of information (see Figure 14) included:
  - Travel guide/tour books (53%)
  - Maps/brochures (43%)
  - Friends/relatives/word of mouth (35%).

- “Other” sources of information (7%) included:
  - Concierge/pamphlets at hotels
  - History classes
  - Personal knowledge of history
  - Was born in the area
  - Horse and buggy rides
  - Carriage tours
  - Live in the area
  - Campgrounds/parking information
  - Charleston city tours
  - Re-enactors.

Figure 13: Visitors who obtained information about park prior to this visit

Figure 14: Source of information used by visitor groups prior to this visit

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Question 1c
Was the information you and your group received from the above sources, all that you and your group needed?

Results
- 90% of visitor groups obtained needed information about Fort Sumter National Monument prior to their visit (see Figure 15).

![Figure 15: Visitor groups who obtained needed information prior to this visit](image)

Question 1d
If No, what additional information did you and your group need?

Results
- Additional information that visitor groups needed but was not available included:
  - Prices
  - Tour time
  - Nature of tours
  - Length of tours
  - Walking and driving direction from Charleston
  - Boat launching locations
  - Parking
  - Ferry schedule
  - Directions to visitor centers
  - Drop-off/pick-up options.
**Park website**

**Question 1e**

e. If you and your group used the park website prior to or during this visit, please rate how helpful the website was in planning your visit.

**Results**

- 32% of visitor groups used the park website prior to or during this visit (see Figure 16).
- 69% of visitor groups who used park website found the website was “extremely helpful” or “very helpful,” as shown in Figure 17.
- No visitor group found the website “not at all helpful.”

![Figure 16: Visitor groups who used park website prior or during this visit](image)

![Figure 17: Helpfulness rating of park website](image)

**Question 1f**

Do you and your group have any suggestions to improve the park website?

**Results**

- Suggestions to improve the website included:
  - Frequently updating all information
  - Better navigation and search capabilities
  - Include a clear map of the area
  - More details about schedules, locations, and directions to take boat tours
  - More information about the combination ticket
  - Create more attractive images on the web to advertise the park.

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
**Preferred sources of information for a future visit**

**Question 1b**

On future visits to Fort Sumter National Monument, what sources would you and your group prefer to use to obtain information in planning your visit?

**Results**

- As shown in Figure 18, the most preferred sources of information included:
  - Park website (55%)
  - Preferred travel guides/tour books (46%).

- The least preferred source was:
  - Written inquiry to park (1%).

*Figure 18: Preferred sources of information for future visits*

* N=233 visitor groups; percentages do not equal 100 because visitor groups could plan to use more than one source.

* total percentages do not equal 100 due to rounding

** total percentages do not equal 100 because visitor can select more than one answer
Information During Visit

National Park Service sites visited

Question 2a
On this visit, which of the following National Park Service sites did you and your group visit?

Results
• 94% visitor groups visited Fort Sumter National Monument from Charleston departure point – Liberty Square (including boat trip and time on island), as shown in Figure 19.

• 8% visited Fort Sumter National Monument from Mount Pleasant departure point – Patriots Point (including boat trip and time on island).

Figure 19: National Park Service sites visited in Charleston area

Question 2b
On this visit, how long did you and your group spend at each site you visited?

Results
• Length of time that visitor groups spent visiting at each National Park Services sites is shown in Table 4. Some of the results need to be interpreted with caution as the number of respondents was less than 30.

Table 4: Length of time spent visiting each National Park Service site

Primary reason for visiting Fort Sumter National Monument

Question 3
On this visit, what was the primary reason that you and your group visited Fort Sumter National Monument?

Results
- 70% of visitor groups reported that “see where the American Civil War started” was their primary reason for visiting Fort Sumter National Monument (see Figure 20).
- 17% visited downtown Charleston and decided to see Fort Sumter.
- “Other” reasons (3%) included:
  - Group members study history
  - Seeing Liberty Square facility
  - Doing a school project
  - Comparing to other Coastal Artillery sites.

Figure 20: Primary reason for visiting Fort Sumter National Monument

Primary reason for visiting the Charleston area

Question 4a
On this trip, what was the primary reason that you and your group visited the Charleston area (Charleston, North Charleston, Mount Pleasant)?

Results
- 41% visitor groups reported visiting other attractions in the area was their primary reason for visiting the Charleston area (see Figure 21).
- 15% reported visiting Fort Sumter National Monument was their primary reason.
- “Other” reasons (27%) included:
  - Attending a family reunion/anniversary/wedding
  - Taking vacation
  - Travel through to another destination.

Figure 21: Primary reason for visiting the Charleston area

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Additional reasons for visiting the Charleston area

Question 4b
For this trip, please list any additional reasons that you and your group visited the Charleston area (Charleston, North Charleston, Mount Pleasant) besides the one listed above.

Results
- 61% came to visit Fort Sumter National Monument (see Figure 22).
- 53% of visitor groups came to the Charleston area to learn about Civil War.
- 47% shopped/dined out.
- “Other” additional reasons (15%) included:
  - Taking a honeymoon trip
  - Taking family vacation
  - Showing friends/relatives the area
  - Taking photographs of historical sites
  - Seeing the new bridge
  - Studying the area architecture
  - Going to a baseball tournament
  - Visiting plantations
  - Having a time share in the area.

Of those who visited Fort Sumter National Monument, 100% indicated visiting Fort Sumter as a reason for visiting Charleston area (see Figure 23).

9% reported visiting Fort Moultrie as a reason for visiting the area.

Activities

Question 9
On the list below, please check all of the activities that you and your group participated in at Fort Sumter National Monument on this visit.

Results
- As shown in Figure 25, the most common activities included:
  
  - Visit Fort Sumter (92%)
  - Read indoor and outdoor exhibits at Fort Sumter (85%)

- The least common activities were:
  
  - Junior Ranger program (1%)
  - Conduct historical research or genealogy (1%)
  - No visitor groups attended a special event.

- “Other” activities (1%) included:
  - Shopping at bookstores
  - Attending ranger speech about Civil War.

Number of vehicles used

Question 8b
If you and your group brought a personal or rental vehicle to the park, how many vehicles did you bring?

Results
- 91% of visitor groups brought one vehicle (see Figure 26).
- 7% used two vehicles.

---

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Forms of transportation

Question 8a
What forms of transportation did you and your group use to get to downtown Charleston or Mount Pleasant?

Results
• 78% of visitor groups traveled to downtown Charleston or Mount Pleasant in private vehicles (see Figure 27).
• 25% traveled on foot.
• “Other” forms of transportation included:
  - Navy ship
  - Pedicab/ rickshaw.

Adequacy of directional road signs

Question 6
Were the signs directing you to Fort Sumter National Monument adequate?
  a. Sign on interstates
  b. Signs on state highways
  c. Signs on communities

Results
Signs on interstates
• 55% of visitor groups felt the directional signs on interstate were adequate (see Figure 28).
• 7% found the signs were not adequate to direct them to the park.

<table>
<thead>
<tr>
<th>Adequacy of signs</th>

Way finding

Question 7a
Did you and your group have any difficulty finding your way to the Charleston or Mount Pleasant departure points for the boat trip to Fort Sumter?

Results
Way to Charleston departure point
- 93% of visitor groups did not have any difficulty finding their way to the Charleston departure point (see Figure 31).

Way to Mount Pleasant departure point
- 96% of visitor groups did not have any difficulties finding their way to Mount Pleasant departure point (see Figure 32).

Question 7b
If Yes, what was the difficulty?

Results
- Visitor groups who had difficulties finding the way (4%) reported the following problems:
  - Directional signs too small
  - Not enough signs
  - No signs on local streets
  - Signs being blocked by trees/bushes
  - New bridge wasn’t well marked
  - Lack of detailed map
  - Road constructions
  - Confused about where to park.

**Total percentages do not equal 100 because visitor can select more than one answer
**Parking**

**Question 7c**
Did you or your group have difficulty finding parking at departure points?

**Results**
- 95% of visitor groups did not have any difficulty finding parking at departure points (see Figure 33).

![Figure 33: Visitors with difficulty finding parking at departure points](image)

**Question 7d**
If Yes, what problems did you encounter?

**Results**
- Parking problems included:
  - Directional signs too small
  - Difficult to find the parking place
  - Not enough parking
  - Too expensive
  - Not enough handicapped parking
  - Cannot park in the garage due to low clearance
  - No RV parking.

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Ratings of Visitor Services and Facilities

Exhibits viewed/read

Question 10a
Please check all of the exhibits that you or your group viewed/read during this visit to Fort Sumter National Monument?

Results

- Exhibits that were viewed/read the most (see Figure 34) included:
  - Fort Sumter outdoor exhibits on island (89%)
  - Fort Sumter indoor exhibits on island (85%).

- Fort Moultrie Visitor Center indoor exhibits (6%) were the least viewed/read exhibits.

Figure 34: Exhibits viewed/read

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Interest ratings of exhibits

Question 10b
For those exhibits that you and your group viewed/read, please rate their level of interest to you.
1=Not interesting
2=Somewhat interesting
3=Moderately interesting
4=Very interesting
5=Extremely interesting

Results
• Figure 35 shows the combined proportions of "extremely interesting" and "very interesting" ratings for exhibits that were rated by enough visitor groups (N≥30).

• Fort Sumter indoor exhibits (86%) received the highest combined proportions of "extremely interesting" and "very interesting" ratings.

• Figures 36 to 41 show the interesting rating for each exhibit.

• Fort Sumter outdoor exhibits (1%) and Liberty Square Visitor Education Center outdoor exhibits (1%) were the exhibits that received the highest "not interesting" rating.

Boat tour services and facilities used

Question 17a
Please check the visitor services and facilities that you or your group used during the boat tour to Fort Sumter.

Results
As shown in Figure 86
- The most used services and facilities included:
  - Snack bar sales items (53%)
  - Automated tour narration (53%).

- The least used service/facility was:
  - Access for disabled persons on boat (2%).

Figure 86: Boat tour services and facilities used
Importance ratings of boat tour services/facilities

Question 17b
For only those services and facilities that you or your group used, please rate their importance from 1-5
1=Not important
2=Somewhat important
3= Moderately important
4= Very important
5= Extremely important

Results
- Figure 87 shows the combined proportions of “extremely important” and “very important” ratings for all services and facilities that were rated by enough visitor groups (N=30).
- Restrooms (93%) were the facilities that received the highest combined proportions of “extremely important” and “very important” ratings.
- Figures 88 to 94 show the importance ratings of each service/facility.
- Souvenir photo service (25%) was the service that received the highest “not important” rating.

Quality ratings of boat tour services/facilities

Question 17c
For those services and facilities that you or your group used (on the boat tour), please rate their quality from 1-5.
1=Very poor
2=Poor
3=Average
4=Good
5=Very good

Results
- Figure 95 shows the combined proportions of “very good” and “good” quality ratings for services/facilities that were rated by enough visitor groups (N≥30).
- Assistance from ranger on boat tour (95%) was the service that received the highest combined proportions of “very good” and “good” ratings.
- Figures 96 to 102 show the quality ratings for each boat tour service/facility.
- Souvenir photo service (6%) was the service that received the highest “very poor” rating.

**Information Unique to Park**

### Boat tour used

**Question 12.**

The following five questions are about the ferry ride to Fort Sumter from Mount Pleasant or downtown Charleston. Please evaluate the transportation, services, and facilities on the boat.

**Results**

- 91% of visitor groups took the boat tour to Fort Sumter from Mount Pleasant or downtown Charleston (see Figure 105).

#### Take boat tour?

**Figure 105:** Visitor groups who took the boat tour to Fort Sumter

<table>
<thead>

</table>

### Length of tour on the island

**Question 12a**

To visit Fort Sumter, visitors ride a tour boat to the island. Each tour boat spends a limited amount of time at the island fort. Please indicate whether the length of time on the island was

- Too short
- About right
- Too long

**Results**

- 73% of visitor groups felt the length of time spent on the island by boat tour was “about right,” as shown in Figure 106.
- 25% thought the boat tour was “too short.”

#### Length of time

**Figure 106:** Length of visit on the island by boat tour

<table>
<thead>
<tr>
<th>Length of time</th>

</tr>
</thead>
<tbody>
<tr>
<td>Too short</td>
<td>83</td>
</tr>
<tr>
<td>About right</td>
<td>262</td>
</tr>
<tr>
<td>Too long</td>
<td>21</td>
</tr>
</tbody>
</table>

**Question 12b**

If the visit was too short, please list the additional amount of time you and your group would like to spend on the island.

**Results**

- Of those who felt the visit was “too short,” 70% wanted to have a half hour in additional to current amount of time spending on the island (see Figure 107).

#### Additional amount of time needed

Perceptions about crowding

Question 13:
Please rate from 1 to 5 how crowded you and your group felt during the boat trip and tour of Fort Sumter.
1=Extremely crowded
2=Somewhat crowded
3=Neither crowded nor uncrowded
4=Somewhat uncrowded
5=Not at all crowded

Results

Crowding on board boat
- 54% of visitor groups felt “extremely crowded” or “somewhat crowded” on board boat (see Figure 108).
- 7% felt it was “somewhat uncrowded” or “not at all crowded”

Figure 108: Perceptions of crowding on board boat

Results

Crowding on island fort tour
- 19% of visitor groups felt it was “extremely crowded” or “somewhat crowded” on island fort tour (see Figure 109).
- 20% felt “somewhat uncrowded” or “not at all crowded.”

Figure 109: Perceptions of crowding on island fort tour

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Value for fee paid

Question 14:
Please rate the value for the fee paid for the boat tour and island fort tour

Results

Boat tour

- 48% of visitor groups rated the value of the fee paid for the boat tour as “very good” or “good,” as shown in Figure 110.
- 3% rated the value of the fee paid as “very poor” or “poor.”

Island fort tour

- 54% of visitor groups rated the value of the fee paid for the island fort tour as “very good” or “good,” as shown in Figure 111.
- 5% of groups rated the value of the fee paid as “very poor” or “poor.”
Boat tour fee

Question 15:
The Fort Sumter National Monument concessionaire currently charges a fee ($12/senior, $13/adult, and $7/child aged 6 to 11) for the boat tour. In your opinion, how appropriate are the amounts of these fees?

Results

Senior fee

- 69% of visitor groups felt the fee amount for seniors was “about right,” as shown in Figure 112.
- 30% felt it was “too high.”

Results

Adult fee

- 83% of visitor groups rated the fee amount for adults as “about right,” as shown in Figure 113.
- 16% thought it was “too high.”

Results

Child fee

- 76% of visitor groups felt the fee amount for children was “about right,” as shown in Figure 114.
- 23% thought the fee amount was “too high.”

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Opinions about combination ticket

Question 16a
Did you or your group purchase a combination ticket for boat tour and additional activities?

Results
- 28% of visitor groups bought combination tickets for the boat tour and additional activities (see Figure 115).

Figure 115: Visitor groups who bought a combination ticket

Question 16b
If Yes, please check all of the activities that were included on the ticket.

Results
- 85% of visitor groups bought combination tickets that included visiting the South Carolina Aquarium (see Figure 116).

Figure 116: Activities included on the ticket

Question 16c
Did you purchase a combination ticket from any of the following places?

Results
- 70% of visitor groups bought the combination ticket from Fort Sumter Tours (see Figure 117).

Figure 117: Places where tickets were purchased

* total percentages do not equal 100 due to rounding
** total percentages do not equal 100 because visitor can select more than one answer
Opinions about combination ticket (continued)

Question 16d
Was it clear that a voucher needed to be redeemed for the ferry portion of the combination tickets purchased from locations other than Fort Sumter Tours?

Results
- 70% of visitor groups reported that they were clear about redeeming a voucher for the ferry portion of the combination ticket purchased from locations other than Fort Sumter Tours (see Figure 118).

![Figure 118: Was it clear that a voucher needed to be redeemed for the ferry portion?](image)

Question 16e
In the future, would you and your group like to see coupons on the back of tickets for other attractions?

Results
- 73% of visitor groups would like to see coupons for other attractions on the back of tickets (see Figure 119).

![Figure 119: Visitor groups who like to see coupons on the back of tickets for other attractions](image)

Question 16f
If Yes, which of the following would you and your group like coupons for?

Results
- 82% of visitor groups would like to have coupons for historic homes/museums (see Figure 120).

![Figure 120: Preferred places to have coupons](image)

** total percentages do not equal 100 because visitor can select more than one answer
Information About Future Preferences

Preferred learning methods

Question 24
On a future visit, how would you and your group prefer to learn about Fort Sumter National Monument?

Results

• 91% of visitor groups were interested in learning about Fort Sumter National Monument on a future visit (see Figure 121).

• As shown in Figure 122, the most preferred learning methods were:
  - Printed materials (62%)
  - Visitor Education Center exhibits (57%)
  - Ranger-led tours (53%).

Figure 121: Visitor groups who were interested in learning about Fort Sumter National Monument on a future visit

APPENDICES

Appendix 1: The Questionnaire
Appendix 2: Additional Analysis

The Visitor Services Project (VSP) offers the opportunity to learn more from VSP visitor study data. Additional analysis can be done using the park’s VSP visitor study data that was collected and entered into the computer. Two-way and three-way cross tabulations can be made of any of the characteristics listed below. Be as specific as possible-you may select a single programs/service/facility instead of all that were listed in the questionnaire. Include your name, address, and phone number in the request.

- Sources of information prior to visit
- Source of information prefer to use on a future visit
- Helpfulness of park website
- NPS sites visited
- Length of visit at each NPS site
- Primary reason for visiting the park
- Primary reason for visiting the Charleston area
- Additional reasons for visiting the Charleston area
- Sites visited in Charleston area
- Adequacy of directional signs
- Way finding
- Parking issue
- Forms of transportation
- Number of vehicles used
- Activities
- Exhibits used
- Exhibit level of interest
- Exhibit level of helpfulness
- Visitor services and facilities used
- Importance of visitor services and facilities
- Quality of visitor services and facilities
- Boat tour used
- Length of boat tour
- Additional time preferred
- Perceptions of crowding
- Value for fee paid for tours
- Appropriateness of fee for the boat tour
- Combination ticket options
- Boat tour services and facilities used
- Importance of boat tour services and facilities
- Quality of boat tour services and facilities
- Visitors with organized groups
- Group type
- Group size
- Visitors with disabilities/impairments
- Respondent race and ethnicity
- Visitor age
- Zip code/state of residence
- Country of residence
- Number of times visited the park in the past 12 months
- Number of times visited the park in visitor lifetime
- Preferred learning methods on a future visit
- Overall quality
